

I listen to K-LOVE, a radio station that is translated into my local community. This station has made a huge impact on my community by providing a safe, family friendly radio station that families in my area can listen to without worrying what their kids are listening to. This station also provides short, family strengthening, educational segments throughout the day that help me and the other parents in my community serve our families better. It would be a tragedy if this station was removed from our community and replaced by a LPFM and we lost these benefits to our families. KLOVE also keeps counselors and pastors on staff that will take calls from my local community for any type of counseling or crisis intervention. My family and I believe so strongly in the work of KLOVE and the benefit it brings to our family and local community, that we support it financially every month. Please do not allow this station to be replaced by a LPFM.
